Vasai

Summary

Enthusiastic third-year Computer Engineering student with a strong interest in AI/ML, Deep Learning, and Data Science. Eager to expand knowledge and skills in intelligent systems and advanced computational techniques to drive impactful solutions.

Experience

Intern Software Engineer

contextIQ • Thane, MH

07/2024 - Present

Intern Software Engineer with experience at ContextIQ, specializing in building intelligent systems. Proficient in NLP, LangChain, LLMs, Retrieval-Augmented Generation (RAG), Docker, FastAPI, and MongoDB. Skilled in developing scalable solutions and enhancing natural language processing capabilities.

Skills

Python, JAVA, C++, Docker, Langchain, NLP, Machine Learning, Deep Learning, PyTorch, Data Science, SQL, MongoDB, FastAPI, Flask, Amazon Web Services, TensorFlow

Education

Computer Engineering

Vidyavardhini's College of Engineering & Technology

06/2026

Projects

- 1)2D Platformer Game (Java): Developed a 2D platformer game by hard-coding all game logic from scratch, including collision detection, fireball mechanics, gravity, and player movement.
 - 2)LLM-Based Semantic Search Engine for E-commerce: Created a semantic search engine for e-commerce applications, leveraging LLM capabilities to enhance search result accuracy and query understanding for improved user experience.
